SOUNDCHECK TIME / DURATION

We'd appreciate if soundcheck can take place early enough to finish 90 minutes before the doors open. This allows us enough time to have an evening meal and change into our stage outfits without too much rush. Our soundcheck usually takes 30 minutes if the PA is fully set up beforehand. As a guide, for doors at 7.30 for an 8pm show, a soundcheck time of no later than 5.30pm – with everything set to go - would be great.
